FOR IMMEDIATE RELEASE

ONESTREAM'S GLOBAL SD-WAN, SECURITY AND VOICE SOLUTION WINS 2018 VISIONARY SPOTLIGHT AWARD

Managed SD-WAN, Security and Voice Enables Digital Transformation on a Global Scale.

Rochester, NY – June 19, 2018 - OneStream Networks today announced that its global managed SD-WAN, Security and SIP/UC voice services were awarded a 2018 Visionary Spotlight Award from ChannelVision Magazine in the SD-WAN Best Channel Deployment category. The annual Visionary Spotlight Awards competition was created to highlight channel and service provider innovation in communications.

OneStream's global SD-WAN, advanced security, UC/SIP voice and professional service delivery are proven, best-in-class solutions for enterprises seeking the flexibility, reliability, and zero-outage performance needed to achieve their global data and communications transformation vision. As companies and VARs pursue cloud and hybrid cloud voice, unified communications and data applications, OneStream is leading the way with the industry's most advanced global infrastructure, providing a single source managed solution in over 200 countries.

"OneStream continues to innovate in global communications," said Brian Skidmore, Chief Marketing Officer, OneStream. "We are proud that ChannelVision Magazine has recognized our global SD-WAN, Security and SIP/UC voice services as a differentiated offering for our channel partners and enterprise customers that is enabling communications transformation on a global scale."

SD-WAN, Security, SIP and Unified Communications are part of OneStream's global managed services architecture, the industry's most comprehensive suite of cloud-based voice, unified communications, data networking and security services. Available worldwide and designed for multi-site global customers and large enterprises, OneStream's global managed services provide customers with an opportunity to transform their business communications and data networking to achieve agility, competitiveness, compliance and responsiveness. Combined with OneStream's global service delivery expertise, white-glove deployment methodology and 24/7/365 NOC support, OneStream's managed services have set the standard for performance

and execution for Fortune 500 companies, midmarket companies and multisite national and global organizations.

About OneStream Networks

OneStream Networks is purpose-built for enterprise-grade cloud-based SIP trunk, SD-WAN, hosted UC/PBX and Contact Center services. With availability in 200+ countries, global strategic peering networks, geo-redundant POPs and multi-provider MPLS transport options, OneStream delivers unparalleled scope and reach. OneStream has become the standard for enterprise customers, VARs, and agents looking for consolidation, vendor reduction and simplified management for single site and multi-site, multi-national voice, data and security applications.
