onestream networks

Driving better collaboration with one experience, one platform, and many options.

Cisco Webex

Webex Meetings Webex Teams

The needs of the business are leading to new ways for people to collaborate together and helping them get the information they need, when they need it, and enabling people to communicate from virtually anywhere at any time.

Cisco Webex from OneStream Networks can help make your collaboration experiences more effective, with Webex Meetings and Webex Teams, no matter where your participants are located or what device or application they use.

Cisco Webex Meetings from OneStream Networks.

A video and web meeting service delivered through the Cisco Webex cloud gives you the application integration flexibility and enterprise-grade security you need to make every meeting experience productive and secure.

Webex Meetings offers a wide variety of features to make sure you get the most out of your meetings, including:

One button push.
Making it easier for participants to join a virtual meeting from any device Just push the big green Join Meeting button.

Video-centric meetings.
You can choose how you want to experience the meeting. Select a full-screen mode or view up to 25 attendees at once at up to 720p screen resolution.

Meetings optimized for the mobile experience.
Attend meetings with video, audio and content sharing across Android and iOS capable devices.

Meet where you work.
Schedule or start a meeting from your calendar and messaging apps, Webex Meetings can easily integrate with most 3rd party tools such as Microsoft® Office 365 and Google Calendar.

Integrated Audio Conferencing with call-in and call back options.

Simply enter your phone number when the meeting begins and the meeting calls you back—no dialing and no passcodes.

Webex Teams.

Your teams are everywhere—but they need to communicate and share content as if they're all in the same room. Webex Teams lets you video meet, message, share, and white board regardless of whether they're together or apart, in one continuous workstream before, during, and after meetings.

Why OneStream Networks & Cisco Webex?
